

# BRAUDE

Heating and Cooling Systems for Corrosive Solutions

1957 - 2007

Serving Industry for  
50 Years

***Come and see us at Wire and Cable India, Mumbai on stand F23.  
Nov 20th to 22nd.***

Braude stand at Wire and Tube 2008 Dusseldorf Messe

**BRAUDE** will be exhibiting at the Wire and Cable show in Mumbai from Nov 20th to Nov 22nd.

On show will be the Braude range of non corrodable equipment designed typically for heating or cooling the corrosive liquids typically used in pickling or electroplating tanks. All our equipment is manufactured from material such as flouropolymers for optimum chemical resistance.

We would like to invite wire manufacturers to visit us on stand F23 at the show and to meet David Snoxhill, Managing Director and Malcolm Hazel, Technical Sales Manager, who will be pleased to demonstrate examples of our equipment and discuss applications in detail.

Braude look forward to welcoming you.
